

# Visualization (Vis)

Storytelling with  
Interactive Data Visualizations

## Homework 11

—

## The Dark Side Of Vis

# Homework

---

- ◆ Keep working on your projects!
- ◆ Catch up on Docker
  - To make your vis deployable, you will have to set up a docker container, i.e., to write a Dockerfile
  - Catch up on Dockerfiles:  
<https://docs.docker.com/reference/dockerfile/>
  - Here is an explanation on how to deploy a Streamlit app inside a docker container:  
<https://docs.streamlit.io/deploy/tutorials/docker>
